# Acceptable Use Policy

## Gaelscoil Naomh Pádraig, Leamhcán

The aim of this Acceptable Use Policy is to ensure that pupils will benefit from learning opportunities offered by the school's Internet resources in a safe and effective manner. Internet use and access is considered a school resource and privilege. Therefore, if the school AUP is not adhered to this privilege will be withdrawn and appropriate sanctions – as outlined in the AUP – will be imposed through the implementation of the Code of Behaviour and/or Anti-Bullying Policy when applicable.

### School's Strategy

The school employs a number of strategies in order to maximise learning opportunities and reduce risks associated with the Internet. These strategies are as follows:

#### ***General***

- When applicable, Internet sessions will always be supervised by a teacher.
- The school have a 'social media committee', consisting of one teacher from: the junior, middle and senior classes (3 in total) who regularly monitor the posts on the school Instagram page.
- Filtering software and/or equivalent systems will be used in order to minimise the risk of exposure to inappropriate material.

- The school will regularly monitor pupils' Internet usage.
- A separate 'username' will be provided to pupils who require the use of assistive technology to access school related educational activities
- Students and teachers will be provided with training in the area of Internet safety on an annual basis (ZEEKO Internet Safety).
- Uploading and downloading of non-approved software will not be permitted.
- Virus protection software will be used and updated on a regular basis.
- The use of personal floppy disks, memory sticks, CD-ROMs, or other digital storage media in school requires a teacher's permission.
- Students will treat others with respect at all times and will not undertake any actions that may bring the school into disrepute. In addition, students must not represent their own views as being those of GSNP on any social medium
- The Board of Management or the entire staff of GSNP do not in any way approve of the placing of a once-off offensive or hurtful public message, image or statement relating to any member of the school community, on a social network site or other public forum where that message, image or statement can be viewed and/or repeated by other people
- It is important that parents/guardians and pupils are aware of our Anti Bullying Policy in relation to social media:  
Isolated or once-off incidents of intentional negative behaviour, including a once- off offensive or hurtful text message or other private messaging, do not fall within the definition of bullying and should be dealt with, as appropriate, in accordance with the school's code of behaviour.  
However, in the context of this policy, placing a once-off offensive or hurtful public message, image or statement on a social network site or other public forum where that message, image or statement can be viewed and/or repeated by other people will be regarded as bullying behaviour

### ***World Wide Web***

- Students will not intentionally visit Internet sites that contain obscene, illegal, hateful or otherwise objectionable materials.
- Students will use the Internet for educational purposes only while in attendance in GSNP.
- Students will never disclose or publicise personal information.
- Downloading materials or images not relevant to their studies, is in direct breach of the school's acceptable use policy.
- Students will be aware that any usage, including distributing or receiving information, school related or personal, may be monitored for unusual activity, security and/or network management reasons.
- Accessing material on-line: Access to video streaming sites such as 'YouTube' is permitted for educational purposes only under the guidance of teaching staff in GSNP
- School related Video Recordings or Audio Recordings online: When it arises that the school, or a class group/cohort from a specific class have entered a competition where the material is put on-line as part of the process (e.g; T.V Competition, Fís Filming Competition, Seachtain na Gaeilge video), parents /guardians will be notified and consent will be sought through an 'opt-out' process.

### ***Personal Devices***

Pupils personal devices are prohibited from being used at any time in Gaelscoil Naomh Pádraig. In exceptional cases where a pupil has received permission to retain a mobile phone in their school bag during the school day, the mobile phone must be powered off at all times (Please see: Use of Mobile Phones Policy). Using their own technology in school in any way, is in direct breach of the school's Acceptable Use Policy and our Use of Mobile Phones Policy and may be dealt with through the Code of Behaviour our Anti-bullying Policy when relevant.

## ***Distance Learning***

1. Gaelscoil Naomh Pádraig recognises that online collaboration is essential to distance learning and may provide access to a variety of online tools that allow communication, sharing, and messaging among staff, students and parents.
2. Students are expected to uphold the same appropriate, safe and courteous conduct online as is expected offline.
3. Students will only have access to chat rooms, discussion forums, messaging or other electronic communication that have been approved by Gaelscoil Naomh Pádraig and sanctioned by the class teacher, for example (SeeSaw & Zoom).
4. These services, although not owned by Gaelscoil Naomh Pádraig, form part of our web services and all content that is placed on these services falls under this policy.
5. Any electronic forms of communication will only be used for school assembly and educational purposes only.
6. When using these communication forums, parental permission for the child is implied, as the links for lessons are being communicated through parents. Essentially, by virtue of the children logging in to the resource, permission is assumed.
7. It is the responsibility and duty of the parent to supervise their children in the home during a zoom call.
8. Usernames and passwords will be used to avoid disclosure of identity where possible.
9. Gaelscoil Naomh Pádraig cannot accept responsibility for the security of such online platforms in the event that they are hacked (every effort will be made to minimise this occurring through the communication of a link to a specific meeting via-private text to the parent and the sending of the relevant link at the latest possible time prior to commencement of meeting)
10. Each staff member will be issued with a dedicated email address which they can use to make contact with parents.
11. All formal communication with staff members must be from parents, not children (exceptions to this relate to children when submitting and communicating with class teacher on SeeSaw Class). This can be done using email (R6) or SeeSaw.
12. For face to face communication (video conferencing) the initial contact will be set up using the staff member's email and the parent's email.
13. Communication using a mobile phone is discouraged, but in the rare exception where it is necessary, staff members should change their settings on their phones so the recipient of the call sees "No caller ID".
